## 2 AQ-25x frame Modbus map

The following table lists Modbus holding registers for AQ-25x frame units with firmware v2.5.7.1-303-AP2. For AQ-21x frame Modbus map refer to chapter *AQ-21x frame Modbus map*.

### NOTICE!

Best way to always get the latest Modbus map is to load the aqs configuration file from the unit and in the AQtivate setting tool go to *Tools → Communication → Modbus map*.

Table. 2 - 6. AQ-25x frame Modbus map

| Holding Register | Parameter                | Access | Length | Info                                                                                                               |
|------------------|--------------------------|--------|--------|--------------------------------------------------------------------------------------------------------------------|
